MARYLAND ACCESSIBLE PARKING SPACES

Accessible Parking Spaces for Cars

Accessible parking spaces for cars have at least a 60-inch-wide access aisle located adjacent to the designated parking space. The access aisle is just wide enough to permit a person using a wheelchair to enter or exit the car. Two accessible parking spaces may share a common access aisle. These parking spaces are designated as reserved by a sign showing the symbol of accessibility and a supplemental sign indicating "Maximum Fine \$250" located on level ground not exceeding 1:50 (2%) in all directions. [MCC-Sec. 31-26A(c)]

Van-Accessible Parking Spaces

Van-accessible parking spaces are the same as accessible parking spaces for cars except for three features needed for vans:

1. a wider access aisle (96") to accommodate a wheelchair lift;
2. vertical clearance (98") to accommodate van height at the van parking space, the adjacent access aisle, and on the vehicular route to and from the van-accessible space,
3. an additional sign that identifies the parking spaces as "van accessible."
4. Each van accessible parking space aisle shall have a "No Parking in Access Aisle" sign.

Location

Accessible parking spaces serving a particular building shall be located on the shortest accessible route of travel from adjacent parking to an accessible entrance. In parking facilities that do not serve a particular building, accessible parking shall be located on the shortest accessible route of travel to an accessible pedestrian entrance of the parking facility. In buildings with multiple accessible entrances with adjacent parking, accessible parking spaces shall be dispersed and located closest to the accessible entrances.
