POLICY REGARDING ENGINEERED PUBLIC RIGHT OF WAY AND ENGINEERED SEDIMENT CONTROL PERMIT ISSUANCE

On March 1st, 2012, DPS will start a one month pilot program for both Engineered Public Right of Way Permits and Engineered Sediment Control Permits. Upon plan approval by DPS, customers will be able to submit only one hard copy of the approved plans along with an electronic copy of the approved plans. This will be an available option for customers instead of the two printed hard copy plans currently required for permit issuance. The electronic copy will be submitted in a prescribed [electronic format \(ecopy\)](#) on a CD or DVD disk.

Following the pilot program, DPS will implement the [ecopy program](#) on April 1st, 2012. Please note that after this deadline, permits will not be issued until an ecopy and a hard copy of the approved plans are received.

Please contact Christina Contreras at 240-777-6307, Christina.Contreras@montgomerycountymd.gov or Atiq Panjshiri 240-777-6352, Atiq.Panjshiri@montgomerycountymd.gov if you have any questions.
