I understand that I may not park vehicles or store and/or stage construction materials within the critical root zone of any roadside tree(s).

*(To determine the critical root zone of a tree: Measure the diameter of the tree from 4 1/2 feet from the ground. Multiply that number by 1.5 and convert to feet. E.g. Tree is 10" x 1.5 = 15"; convert to FEET. The critical root zone of this tree is **15 FEET**)*
