## DIVISION OF FIRE CODE ENFORCEMENT

### ADMINISTRATIVE INTERPRETATION 94-1

**CODE REFERENCE:** Executive Regulation 19-93 - Facilities using, processing, transferring, storing or manufacturing hazardous substances.

**BACKGROUND:** These regulations require all occupancies using, processing, transferring, storing or manufacturing hazardous substances that exceed a minimum threshold level to report these substances and their locations, develop contingency plans in the event of accidental release, and provide these plans to the Department of Fire and Rescue Services on behalf of the Local Emergency Planning Council.

**INTERPRETATION:** This regulation is enforced by the Division of Emergency Management and the Division of Fire Code Enforcement. The attached flow chart must be used in the enforcement of this regulation unless the inspector encounters unusual circumstances during the enforcement process.

**PREPARED BY:** Captain Brian S. Geraci

**DATE** 5-3-94

**FIRE MARSHAL**

A handwritten signature in cursive script, appearing to read "Jed Janboe", written over a horizontal line.
